SUMMARY

Frontend Engineer specializing in React.js, Next.js, Javascript and TypeScript, experienced in building modern, responsive, and performance-focused web applications. Strong focus on clean architecture, reusable components, and API-driven interfaces.

WORK EXPERIENCE

Frontend Engineer Acardia (2024-2025)

- Built and maintained a responsive hotel management system using React.js, Next.js, Javascript and TypeScript and Tailwind CSS.
- Implemented authentication, role-based access, and CRUD operations.
- Integrated RESTful APIs and managed async state, error handling, and loading flows.
- Collaborated with designers and backend engineers to deliver a production-ready application.

Frontend Engineer (React / TypeScript) Morlab — 2025

- Built and maintained frontend features using React.js, Next.js, Javascript and TypeScript.
- Developed reusable, scalable UI components with Tailwind CSS.
- Integrated REST APIs and handled application state and async flows.

Website manager Jewels event. (2024-present)

- Manage and maintain the company website, ensuring responsiveness, performance, and stability.
- Implement UI updates and content changes aligned with business needs.
- Improved mobile usability and page load performance.
